

Taylor RyMar Corporation – Qualifications Summary

Taylor RyMar Corporation has been providing engineering services to key clients throughout Arizona and the Southwest for over 30 years. The company continues to grow and in 2007 announced the opening of an additional office in Wichita, Kansas.

Core Areas of Expertise

- ✚ Power distribution, lighting, fire alarm, electrical systems studies
- ✚ HVAC systems, central plants, exhaust systems, building load analysis
- ✚ Plumbing systems, process piping systems
- ✚ Owner's agent services / facilities permit agent services
- ✚ Building systems evaluation
- ✚ LEED / Green Building design

Taylor RyMar Corporation has completed thousands of projects requiring engineering and design services; however, our experience in critical facilities and systems is our primary strength. High quality critical systems analysis and design is a result of our experience, knowledge of products and technology, and use of the latest software for systems modeling and coordination. This knowledge proves useful for all types of projects; allowing us to specify systems that are appropriate for the specific project budget and user needs.

Project Types

- ✚ Advanced technology manufacturing – cleanrooms, manufacturing process engineering
- ✚ Industrial Manufacturing – injection molding plants, wood processing, light & heavy industrial
- ✚ Healthcare – systems and studies, labs, treatment centers
- ✚ Municipal – Fire stations, community centers, police stations, standby power systems
- ✚ Data Centers – generator and UPS systems, rack power distribution
- ✚ Distribution Warehousing – warehousing facilities to 1,000,000+ square feet
- ✚ Education – K-12 school campuses, university classrooms and computer labs
- ✚ Commercial – Office buildings, office / warehouse, multi-tenant buildings.

TRC utilizes Autodesk Building Systems and AutoCAD 2008 for our designs. We design all complex mechanical and piping systems drawings in 3D.

Additionally, we use DELTEK and MICROSOFT products to fully integrate our project collaboration and management systems with accounting and resource management. We are committed to provide our staff with the tools that will assist them and add value to the process. Our project managers can access project cost data, budget data, and billing information using DELTEK Advantage software.
